BATTLESHIP KENTUCKY.
The U. S. S. Kentucky, the model battleship of the United States Navy, after service as flagship of Uncle Sam's fleet in the Orient, is to bring back Admiral "Bob" Evans, whose term of sea duty has expired. En route home the Kentucky will be visited by the German Emperor, who has long desired to see this ship, and will also have an opportunity to renew acquaintance with his favorite American, "Fighting Bob" Evans.

"SIC 'EM" THE BULLETIN SAYS

SOLOMONVILLE PAPER FURNISHES INFORMATION ON STATUS OF RAILROADS.

BUILDING INTO GRAHAM

Two Surveying Parties Now in the Field Above Solomonville—Two Lines Trying for Right-of-Way Through Box Canyon, Like Two Trains Trying to Pass on Same Track.

There is just one item of real interest, in this section at present, and that is railroad news. It is becoming a common occurrence for a surveying party, composed of from four to six persons, dressed in khaki, and armed to the teeth, to drive into Solomonville late in the evening, and strike out up the river the following morning.

Two such parties are now located above Solomonville. One is in the vicinity of the Brown ranch, and another located at the Box canyon. These parties are representing the Arizona Eastern. We never heard of the Arizona Eastern until the other day, when a brand new railroad president appeared on the scene in Tucson, and was introduced around as the president.

All the time, however, the president of this new railroad (on paper) was in close company with E. A. McFarland, assistant general manager of the Arizona Colorado railroad, and Epes Randolph, president of the Gila Valley, Globe and Northern, and it may be put down now that the Arizona Eastern is an offspring of the Southern Pacific.

The first clash between the railroad forces occurred in Pinal county last week. The Santa Fe people had four hundred men at work on the north side of the Gila River, near Kelvin, when a deputy sheriff arrived and served an injunction sworn to by the officials of the Arizona & Eastern, who claimed that particular spot as the property of the new railroad company, who intend to build a line from Deming on the Southern Pacific down the Gila

(Continued on Page Eight.)

CHICAGO TO TAKE OVER STREET RAILWAYS

CITIZENS VOTED OVERWHELMINGLY AT ELECTION LAST WEEK TO TAKE OVER ALL STREET RAILWAY LINES OF CITY.

Chicago, April 11.—Chicago shows the way that will lead the cities of America to municipal emancipation.

Today the first steps were taken toward the acquisition by the city of that control of the street railways, for which the citizens voted overwhelmingly at last Tuesday's election. The citizens, by their votes in favor of the proposition submitted to them on the little ballot, have declared in favor of municipal ownership.

They have declared against the renewal of any street railway franchise. They have declared in favor of the licensing of such street railway lines as can not be taken over by the city at the earliest practicable moment under the law.

The street railways now operated by private corporations will be licensed to run only until ordinances for their acquisition can be drawn by the Mueller law and submitted to a vote of the people.

This is a condition so close to municipal ownership that victory is already in sight. Marking also the day that showed the city of Chicago in the van of the fight for municipal ownership of street railways, the fight to secure 75-cent gas was renewed today.

Without waiting any time, Corporation Counsel Tolman today directed Granville W. Browning, special counsel for the city, to take steps for an appeal to the supreme court in the Mills case, decided against the city by Judge Grosscup in the United States court.

Fisk Jubilee Singers.
The Fisk Jubilee Singers will be at the Opera House next Tuesday evening in a grand concert. The attraction will likely draw a crowded house.

Probably Close Big Deal.
The arrival here last evening of Mr. A. M. MacKenzie will probably mark the closing of a large deal for a mining property in Arizona, which the firm of Morrow & MacKenzie have had in hand for some time. The matter will likely be closed up within a few days.

TELEGRAPHIC MARKET REPORT

REVIEW ADDS A DAILY MARKET LETTER OF INVALUABLE SERVICE TO INVESTORS.

IN IMMEDIATE TOUCH

With Michigan, New York and Boston Markets—Placing Business Men of Bisbee and Vicinity in Intimate Touch With the Financial World and Stock Markets of the East.

(Special to Review.)

Boston, April 11.—The copper shares interests laid low today, frightened apparently by a Lawson letter, in a New York Sunday paper, which suggested a million dollar lawsuit against the copper and the gas interests. So far this controversy has signally failed to bring any new selling in copper stocks. It is only a mark of influence, being to discourage the bull interests from working for the advance. There is some new investment, buying of copper every day, and the floating supply is getting very small. Conditions are all favorable to an advance in prices, and we cannot help thinking that the market will be higher but it is lower. Amalgamated is surprising everybody by its firmness, as are also Copper Range, Shannon and Bingham.

Railroad Stocks.

New York, April 11.—The stock market marked time today, speculation is waiting upon the government report. The consensus of opinion is that it would make an unfavorable showing for winter wheat, possibly no better than 80. The condition of the crop, however, has improved since that compilation of the government's figures. At this hour, the report has not been published, and traders sold today because the market was dull and lost their stocks.

As soon as prices begin to harden they will buy back. Conditions have not changed. We expect to see the upward movement resumed tomorrow, and it is our belief that the next upswing we shall have a greater and more legitimate advance than has ever been seen. The sentiment of the best interests here are decidedly bullish. The people who are buying the market are in evidence of that side or the first time in many months. It means something. We are still bullish on Union Pacific. We think its weakness deceptive, and that it will have another sharp advance this week. We are bullish on Rock Island common for a turn of five or six per cent, and that is all that we can reasonably expect at this time, but after this stock has been put to 30, conditions seem all right, and the price will be carried further. The right people are behind the stock again. Would advise its purchase on all weak spots. Total sales today 467,500 shares.

Curb Letter.

Ishpeming, April 11.—Today's was another day of inactivity in the curb market. There was a very heavy demand for Calumet & Arizona at \$112 being bid for large blocks, but this failed to bring any out, \$115 to \$117 being asked.

The demand is due to the report that the recent strike of ore in the Oliver shaft is copper, or ore that runs 88 1/2 per cent copper. The strike of ore in the same shaft two weeks ago was sulphide, or ore that runs 67 1/2 per cent copper. This increases the value of this property thousands and thousands of dollars, and we predict that it will sell much higher very shortly.

L. S. & P. was also in good demand, and sold from \$158 to \$160, closing at \$157.50 bid for small lots. It is on its way to the \$200 mark. Watch it. Strength was perhaps more apparent in Junction than any of the Bonanzas, that is, when range of price is conceded. It opened with sales at 26 1/4, and sold at 29 1/4 during the day, closing at 28 bid and 30 asked. Fifty dollars is predicted for this by people who should know something about this property. We consider it cheap. There was nothing doing in Calumet and Pittsburg, or Pittsburg and Duluth, but we feel that both of these stocks will soon show some ac-

COURTS AND MILITARY CLASH IN COLORADO OVER CONTEMPT CASES

JUDGE STEVENS, SITTING IN OURAY, DECLARES ADJUTANT GENERAL BELL AND CAPTAIN WELLS IN CONTEMPT FOR NOT COMPLYING WITH WRIT OF HABEAS CORPUS AND PRODUCING PRESIDENT MOYER IN COURT.

Court Orders Sheriff to Arrest the Two Officers—Judge Severely Criticizes Governor Peabody—Declares Them in Insurrection Against the Courts—General Bell Stated "That Only Way the Sheriff Can Take Him Is Over the Dead Bodies of Every Soldier Under His Command"—Governor Defies the Courts, Too.

Ouray, Colo., April 12.—District

Judge Theron Stevens today declared Adjutant General Sherman M. Bell and Captain Bulkley Wells to be in contempt of court for not complying with the writ of habeas corpus which required them to bring before the court today Charles H. Moyer, President of the Western Federation of Miners, whom they are holding in confinement at Telluride. The court ordered Sheriff Corbett to arrest the two officers, and Judge Stevens severely criticized the course of Governor James H. Peabody and the military authorities, saying they appeared to be in insurrection against the courts.

President Moyer was arrested on March 25, on the charge of flag desecration, and when released under bond several days later, was immediately seized by the military authorities. General Bell has said that the reason for holding Moyer as a prisoner is a "military necessity." After refusing to permit the filing of a return to the writ today, Judge Stevens ordered that Moyer be discharged from custody, and issued an order of attachment against General Bell and Captain Wells, and assessed a fine of \$500 each, and expressed regret that the Governor was not before the court, as he considered him equally guilty with Bell and Wells.

Bell Defies Court.

Telluride, April 11.—When General Sherman M. Bell was informed today that Judge Stevens, of the District Court of Ouray county, had ordered himself and Captain Wells arrested and confined in the Ouray county jail on the charge of contempt of court, he said: "If Sheriff Corbett takes us to Ouray, it will have to be over the dead bodies of all the soldiers under my command in this county. Moyer will never be produced in court until Governor Peabody orders me to do so, unless he escapes and goes over the range on snow shoes."

Peabody Defies, Too.

Denver, April 11.—When Governor Peabody was informed today that Judge Stevens, of Ouray, in ordering the arrest of General Bell and Captain Wells for contempt of court, in not complying with the writ of habeas corpus in the Moyer case, he said: "We will not recognize the writ of attachment, and the military authorities will not appear in court. Neither will we give up Moyer. If the District Court of Ouray is to be allowed to interfere in carrying out the plans of the military under martial law, there is no reason why justices of the peace might not, with equal authority, intervene and render the military absolutely powerless and impotent."

FEARS OF ATTACK BY EXILES IN HAYTI

Port Au Prince, Hayti, April 11.—Fear is felt here of an attack by numerous Haytian exiles, organized by General Jimenez, the former president of the Dominican Republic, and now gathered in Dominican territory. The government has declared a state of siege in all the departments of the republic, and the frontiers are guarded by strong forces. The feeling of unrest is very marked, and the imminent possibility of an outbreak is causing serious apprehension.

WINNIPEG IS BEING BADLY WASHED BY RED RIVER FLOODS

St. Paul, April 11.—A special to the Pioneer Press from Winnipeg says: "At midnight the flood water from the Red River is flowing down Main Street, and the barns of the Winnipeg Electric Railway are being washed by a strong current, and it is expected they will be swept away. The water is rising rapidly, and is endangering the bridges. Since yesterday the Red River has risen nineteen feet, and the people along its bank are fleeing to places of safety."

Funeral of Shorty Corson.

The funeral of W. C. Corson, the officer who was killed in Douglas, will be held in that city today at 12:30, and the ceremonies will be under the charge of the Bisbee Lodge of Elks, of which he was a member. Exalted Ruler W. B. Kelly and the officers of the lodge will go to Douglas this morning to carry out the ritual of the dead.

Spiritualistic mediums are advertising spring styles in rape.—Philadelphia Record.

livity when a few facts about these properties are made known, which I understand will be soon. They are barabara now. Don't wait until the move.

Meeting of Council.

The Council will hold a special meeting tonight to consider the bonds of Marshal Snodgrass and City Clerk Hicks, which were refused at the last meeting because of errors in the manner in which the bonds were drawn. The bonds have been made to comply with the law, and there is no doubt but that they will be accepted tonight.

Besides the business above the auditing of the old Council's books will be attended to. The committee appointed at the last meeting will make their report tonight.

Washington, D. C., April 11.—Frank Coddington was today appointed postmaster at Parker, vice Louis W. Sinclair, removed.

RUSSIA STILL HAS DELAY MICROBE

OBJECTS TO PRESENCE OF CHINESE TROOPS ON MANCHURIAN FRONTIER.

FLOODS IN MANCHURIA

Blocking Roads—Flooding Railways. Rendering Country Impassable—Not Enough Russians North of Yalu to Stop Jap Advance—Long Expected Engagement May Never Occur.

Russia Still Protests.

London, April 12.—The Tientsin correspondent of the Standard says: "Russia has again protested against the presence of Chinese troops on the Manchurian frontier, and has demanded their withdrawal to within the five-mile limit of the Great Wall."

Heavy Rains in Manchuria.

London, April 11.—According to the correspondent of the Times at Newchwang, who cables from there under date of April 8, says: "Heavy rains have flooded the railways and blocked the roads throughout Southern Manchuria. Field telegraphs have been interrupted, and the country is impassable."

"Russian officers," says the correspondent, "consider the Japanese lost the chance of occupying Newchwang, where the defenses are now amply sufficient to repulse any attack."

Not Enough Russians.

London, April 11.—The correspondent of the Times at Seoul, cabling under date of April 7, says: "It is believed the Russians, north of the Yalu are not sufficiently numerous to withstand the Japanese advance for any considerable distance beyond the river."

May Never Occur.

London, April 11.—The correspondent of the Times with Japanese headquarters, sends the following, dated April 11, by wireless telegraphy via Wei Hai Wei: "It is doubtful whether the long expected engagement for possession of the Yalu River will ever take place, and certainly not unless the Russians have been reinforced more heavily than my information leads me to believe. It must be remembered that unless the Japanese secure the north side of the Yalu, with a new base by July, the land movements from Korea will become practically impossible."

"The Russians desire to get the Japanese forces inland, with the hope of enveloping them, while the Japanese want to get inland because the country affords a more suitable theatre of operations."

From the Land of Snow and Ice

A. M. MacKENZIE ARRIVES WITH SMALL PARTY FROM MICHIGAN.

Calumet Still Has Four Feet of Snow. Chicago Freed From Winter Element and Was Clear and Fine—Floods Anticipated en Route, But Did Not Materialize—Michigan Strong in the Faith as to Bisbee.

A. M. MacKenzie, of the firm of Morrow and MacKenzie, the mining brokers of this city, arrived in Bisbee last evening with a small party of Michigan people, who come to Bisbee and Southern Arizona for various purposes, some to look over the field with a view of investment, others to look over the business field, and others to remain and make Bisbee their homes. Mr. MacKenzie left Calumet last Tuesday, and came directly through from the North. When the party left Calumet, there was four feet of snow and ice on the main street of that city. The people were going about in fur and frieze overcoats, and wearing ear muffs. About 200 miles north of Milwaukee, however, the white covering of the earth was left behind, and on arrival in Chicago the weather was
